🌐 GitHub | 📞 0667153555 | 🌐 hamza.eshoul.com | ✉ hamza.eshoul.pro@gmail.com | 📍 Rabat, Morocco

Skills

Programming Languages : JavaScript, HTML, CSS

Frameworks : React, Vue, Express.js, TailwindCSS

Tools : Git, GitHub, MongoDB, Mongoose, Firebase, Render, Figma

Projects

Odin Book 📄 | *React, Tailwind CSS, Express.js, MongoDB* Sep 2023

- Created a social media platform where users authenticate, add friends and publish posts
- Built a RESTful API to handle data manipulation, ensuring efficient client and server communication

Messaging App 📄 | *React, Tailwind CSS, Express.js, MongoDB, Socket.IO* Aug 2023

- Designed a messaging application with multiple active users, ranked 2nd best in the Odin Project curriculum
- Created a modern user interface inspired by best practices implemented by leaders of the messaging industry
- Implemented real-time communication between users utilizing the web socket API

Professional Experience

Full Stack Developer | *EdPulse* July 2024 – Present

- Own the entire system and infrastructure of the internal platform, from architecture to deployment.
- Build and maintain NestJS and React applications (PostgreSQL, Supabase) for the operations, sales and recruitment teams.
- Design automations and integrations across company tools (Zapier, Pabbly Connect, Make, webhooks, third-party APIs) that remove manual work.

Front End React.js Developer | *Opineo.io* February 2024 – July 2024

- Developed the core front-end of a booking platform from Figma mockups: traveler, host and admin interfaces.
- Built the application's features with React Query, Zustand, Framer Motion and React Hook Form.

Full Stack Vue.js – Laravel Developer | *TijarTech* Jan 2024 – Feb 2024

- Developed and maintained TijarTech web applications using the agile methodology
- Creating intuitive front-end interfaces and contributed to back-end development using Laravel.

Freelance Web Developer | *Self Employed* Sep 2023 – December 2023

- Created modern, professional, and intuitive websites implementing React and JavaScript best practices
- Integrated responsive design, multi-platform support, and hosting services ensuring websites optimization
